

RightFax Integration Module Features

Some features of the Integration module include:

- The use of facsimile command language (FCL) for sending application-triggered faxes, print, email, SMS messages, certified email, or encrypted PDF documents via email
- A graphical user interface to create filter templates that build documents from a text stream, **the RightFax XML schema for translations from text to FCL, and document-based host notification**
- RightFax JAVA-based integration to Oracle 1-to-1 Fulfillment Services (for most **Oracle CRM applications Oracle Purchasing 11i** documents)

RightFax can integrate with many applications. The integration options are listed below:

- Integration Module services on the RightFax server with Facsimile Command Language (FCL)
- RightFax XML Interface
- RightFax API for Java
- RightFax COM Module
- RightFax C, C++ and Visual Basic API
